

January 2012

University of North Dakota

You can almost always count on snow on the ground in Grand Forks in January. The snow brings many things, including some beautiful scenery to our region. But it also brings responsibilities in the form of snow removal. We want to keep our streets and sidewalks clear of snow and safe for travel, so property owners are required to have snow removed from sidewalks within 24 hours after the snow stops falling. Remember, the sidewalks are used by letter carriers, delivery companies or people out walking their dogs. Help avoid accidents and make sure they have a clear path to use all winter long.
