

## Grand Forks Food Establishment Sanitation Scores

Thank you for visiting the Grand Forks Public Health Department Food Establishment inspection score website. The Grand Forks Public Health Department adopted an updated Food Code on January 1, 2012. When viewing the inspection scores, please keep in mind the following:

1. The Grand Forks Public Health Department does routine inspections of all food establishments in Grand Forks twice a year, or about every four to six months.
2. Inspections completed after January 1, 2012, will no longer be given a percentage score, but will be rated according to the number of critical and/or non-critical violations noted at the time of inspection.
3. Critical violations are violations that can directly affect the safety of a food. Non-critical violations are violations that may indirectly affect food safety. For example, food temperature violations are a critical item or approximately a five-point deduction on the previous form. A dirty floor is a non-critical item and was a one-point deduction on the previous form.
4. The inspection is a snapshot of the condition of that establishment at the time of the inspection. Conditions may vary from day to day.

Please contact the Environmental Health Division at (701)787-8100 if you have any comments or questions.

Inspection results will be updated monthly as inspections are completed.

Facility	Address	Date Inspected	Current		Previous % Score
