Full Name	First Name: Linda Last Name: Olson
Full Address	Street Address: 404 hamline street City: Grand forks State: ND Zip: 58203
Agenda Item Number / Topic:	Closed captioning for city council meetongs (and working meetings)
Comments:	As a HH (hard of hearing) person and an active community citizen, i would appreciate CC at the city council meetings (including the work sessions) when i last attended a city council meeting to defend our neighborhood, it was impossible to hear what council members and the zoning and planing representative was saying. I could have addressed their questions if i had been given an opportunity. Thank you for your consideration

Agenda Item Number / Topic:	General
Comments:	I have heard from friends that it can be difficult to follow the live public meetings, so would it be possible to enable closed captioning at future public meetings. Sounds like a plan that would make it easier for everyone to follow along, especially if they made the effort to travel to the council chambers.

Comments:	Folks with hearing impairment or deafness are missing important information under the current loop system used for public city council meetings. A closed caption system would address this issue.
