**Subject:** Population Information for Grand Forks

Councilman Vein,

The following is the information you requested regarding the population for the City of Grand Forks. These figures come directly from the decennial census which is the best information available.

Year 2000 - 49,321  
Year 2010 - 52,838  
Year 2020 - 59,166

As you can see the population has been increasing, including a 12% increase between 2010 and 2020.

The MPO is also in the process of commissioning a socioeconomic study that is expected to be completed in the summer of 2026 which will provide additional detailed information.

Please let me know if you have any other questions.

Thanks,

**Ryan P. Brooks, AICP**
