Consistency with 2050 Land Use Plan
Request is consistent with: <ul style="list-style-type: none"> - Housing – Goal 1 – Objective A Increase a well-maintained mix of housing opportunities to provide for the full spectrum of existing and potential residents. - Housing – Goal 2 – Objective B The City will not constrain the housing supply with unnecessary regulation and will ensure regulations allow housing types that families that can buy or rent. effectively as possible, relying upon infill opportunities and the growth tier system.

Background and Discussion
<ul style="list-style-type: none"> - These requests are second round of requests after Planning sent out 35 letters earlier this fall to existing single family property owners about their non-conforming use status. First round included eight property owners rezoning, this current round includes 4 additional properties: <ul style="list-style-type: none"> - 1 lot is located within a B-1 District and would be rezoned to R-2. - 1 lot is located within a B-3 District and would be rezoned to R-2. - 2 lots are also within a B-3 District, and would be rezoned to R-4. - The commercial zoning was put into place a number of decades ago to make the residential homes non-conforming and require the houses to shift to commercial natures when they were improved or sold. - Given the housing market increasing demands in our community and the decline of commercial bricks and mortar needs, the previous desire and plan to transition existing units to commercial is no longer a viable option, and ultimately further increases housing concerns as this existing home is unable to be financed under its nonconforming status in the commercial district. - Staff encourages the continuation of existing housing and is recommending approval of the rezonings. Additional requests will be brought forward as property owners consent to be rezoned.

Findings of Fact
<ul style="list-style-type: none"> • Rezoning requires two actions by both the Planning and Zoning Commission and the City Council. • Housing is a current community need and priority, and it is recommended the existing housing unit be maintained over any previous plan to transition housing to commercial. • Rezoning request is compatible with the 2050 Future Land Use Map.
