Submitted by: Engineering Department, David Kuharenko, PE (Assistant City Engineer)

Staff Recommended Action: **Approve Preliminary Engineering Reimbursement Agreement with the NDDOT for City Project No. 9105 – Mill & Overlay N Washington St (Gateway Dr to I-29)**

Committee Recommended Action: Motion by Berg, second by Vein to refer staff recommendation to City Council with a recommendation to approve. Motion carried unanimously.

Council Action:

Motion by Berg, second by Fridolfs to approve on consent agenda. Motion passed unanimously.

BACKGROUND:

The agreement under consideration for approval is the North Dakota Department of Transportation’s (NDDOT) standard preliminary engineering reimbursement agreement. The agreement itself is that the NDDOT agrees to proceed with the preliminary engineering and proceed with the construction of the project, the City agrees to reimburse the NDDOT for all preliminary engineering expenses incurred if the City terminates or materially reduces the project scope. The NDDOT is in charge of obtaining the necessary professional services. This is a project that is currently programmed for Fiscal Year 2027 and the NDDOT intends to design this project with in house staff.

The project itself consists of milling the top layer of the existing asphalt and overlaying a new layer of asphalt. This section of N Washington St was last milled and overlaid in 2015 with a chip seal completed in 2017. As this project is funded through the Regional Roads Program and is located on the secondary regional system, it is anticipated that the cost split will be 80% Federal/10% State/10% Local for the portion within City limits. The project cost estimate is \$1,497,000 with an anticipated City share of \$86,826.

This project has been considered at previous Council/Committee/Public meetings, some of which are as follows:

- October 21, 2024 – Council approved a Federal Transportation Request which included this project

ANALYSIS AND FINDINGS OF FACT:

- The NDDOT is now looking for a commitment from the City to proceed with this project.
- The basis of the attached Agreement is that the NDDOT agrees to proceed with the preliminary engineering of the project and the City agrees to reimburse the NDDOT for all Preliminary Engineering expenses incurred if the City terminates or materially reduces the project scope.
- The local match for this preliminary engineering is anticipated to be split 80% Federal/10% State/10% City for the portion located within City limits.
- Funding for this Agreement will come from Street/Infrastructure Fund 4815 where \$86,826 Has been budgeted in 2027.
- If this project is pursued, construction is anticipated to take place during the 2027 construction season and be completed by the end of the 2027 construction season.
