Background and Discussion

- This replat request was originally approved by the Planning & Zoning Commission and City Council in October 2022. However, the plat was never recorded with the County, and Section 18-0906(5)(F) requires that approved plats be recorded within 180 days. Following that, the applicant is revisiting the project and looking to move forward, so new approvals are required.
- The request is a minor replat to combine the two lots pictured below in order to construct a breezeway for warehousing operations between the 1562 building and the southerly 1630 building. Structures are not permitted to be built over lot lines, so the combination of the lots is necessary to permit this breezeway.
- Staff is recommending approval of the plat subject to conditions shown on the attached review copy.
